These magnificent Saigs are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which conduce to health and comfort, as a superior system of lighting and ventilating, the very lest Profisions, and a caseful imedical superintendence. The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expresse is sparsed to render this the best and most popular coursynace to America. As Train & Co. have made such arrangements in Liverpool as will PROTEOT their friends from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Respectable House, on favorable terms, for a well immon line of Magafacont Prolet Ships, and in this way avoid the disrespect, amegance and delay which they so often experience, when they engage with Assets who are the slightly connected with ill run n dily line of active Galena, Sillwater and St. ram.

We make no comparison with the papers the great cities, whose rates are double and treble outs, and whose customers obtain thereby the benefit of a very large circulation. Our own circulation, for our Daily, Tri-weekly, and Weekly editions, is now larger than that of many papers in cities of much greater population than this, and is increasing in a very gratifying ratio; so that we feel confident of giving an ample return for the investments of advertisers. After the 1st of July next, we shall also, for the reasons given above, increase the subscription price of our Daily to \$7,00, and of the Tri-Weekly to \$3,50. All contracts for advertising or for the paper made previous to that time, will of course be at present rates. No change to mail sub

Fortunately for us, we live in a community which, while it is prospering in all the departments of life, is willing to pay reasonably for the services of those who labor for its interests. Another Legislative Developement!

During the last session of the Legislature, bill passed the House some time before the close, authorizing a vote of the people of Marquette and Adams counties upon the question of dividing those counties and organizing from parts of amic years, been devoted to while cravats. At the such the county of FRANKIN. The bill was commencement of these religious Anniversarie they and advocated, and pushed through by the Members from Marquette, though strenuously opposed, out of doors, and in the lobby, by an individual who represented himself and "Barstow and the balance," on this, and to the belief of most Members, on sundry other occasions, not necessary to mention. This person openly threatened that the bill should not become a law. The till was watched by the mover, very closely, as he feared that it might disappear as mystericusly as did others. It passed the Senate on Saturday evening April 1st. The moret still watched it, saw it enrolled, and himself placed it in the hands of the chairman of the eaolling Committee, Senator Adams, who was then preparing to go to the Governor with a batch of bills for his signature.

On Monday morning, when the House met to adjourn, a veto was sent to the House, relative to the Emigrant Agency, but no list of bills signed was read, and the friends of this bill supposed, of course, that is was signed. But not so; our model Governor, the very pink and ornament of demeeracy, had coolly put it in his pocket! And why should a bill of this kind, which had passed both Houses, and against which no Constitutional objection intervened, he so treated? The only possible reason, is suggested by a corresponden from Marquetto Co., who informs us,-what we knew very well before, for this is not by any mount the first time that Barstow, Kelsey, and Montello, have appeared in the Legislature—that the Governor and Mr K, are interested in propcrty at Montello, which, being centrally located might, by some turn of the wheel of fortune, become the County Seat, if Marquette County should not be divided. So, to make sure that should not be divided, the Governor pockets the bill. He had the game all in his own hands.

There is no sort of mistake about the bill reaching the Governor, for the chairman of the enrolling committee took an interest in it, and is certain of the fact, and the Journals will show it unless the records have been mutilated, which would not be strange at all.

Our correspondent, a man every way reliable writes, with a very natural feeling : "I consider this the meanest prostitution of

man's office, (in a small way) that I have lately Because Gov. Barstow happens to own a few hundred dollars worth of property, with a County Seat as a very uncertain contingent, that he should take the responsibility of interposing set the example of working hard to save property nimself officially against a bill that passed both Houses almost unanimously. You may well believe that there is some feeling in the county, and you may look for a Senator from this district, and two Assemblymen from the county, who will not give much aid and comfort to "Baratow and the belance."

ANOTHER LAND BILL IN CONGRESS.-A bill over the Great Western Rail-Road, has been granting land to Minnesots, for building a Rail Road to Lake Superior, was reported in the House and the 6th instant. It was resolutely opposed from the start; its friends trying to force it through, under whip and spur. Finally, on moof Mr. Lurcaus the House adjourned, by Yeas 80 Nays 65, and the bill went over. The Land-Grab policy does not make much headway in-Congress, since the defeat of the Valley Road

Last evening I witnessed at this place the most singular phenomenon that I over beheld. Just a: twilight, a meteor started from a point about forty-five degrees in elevation, in the west, and in its course downward, pursued a track a little inmoving a short distance it seemed to explode in part, like the flash from the tail of a rocket, and, moving on till it reached a point about half way from its starting point to the earth, it exploded and disappeared, leaving after each explosion a luminous appearance, distinctly marking its track and the points of explosion. For a few yards from where it was first seen, its track appeared like a bright streak of Northern Lights. This maintained its luminosity, gradually changing its shape till it assumed the form of the letter S .-From this it changed into the form of a crescent, from the points of which there seemed to be apesembling stars. From the lower hore, or point, chain of light quite marked, passed down to the point where the last explosion took place, at which point there remained a luminous apppearance which it did not require much stretch of the imagination to frame into the shape of an eagle standing upon a small island. This singular appearance remained for fifteen or twenty minutes, when it gradually faded out, the eagle and the island first disappearang, while the crescent remained in full brilliancy.

Another Clerical Remonstrance.

The following remoustrance against the Nebraa Bill has been forwarded to the President by the clergy of Concord, the friends and neighbor of Gen. Pierce.

Respected and Honored Siz:—We, the undersigned, your fellow citizens and friends of the City of Concord, Ministers of the Gospel—influenced by no party feelings, but we trust by deep moral and religious sentiments; respectfully represent to you, that we are deeply grieved by the introduction into Congress of what is called the Nebraska Bill.—that we regard it as a measure premature, unexpected and undesired; a violation of the most solemn compact, impairing the faith of the Nation in all compromises, calculated to of the Most solemb compact, impacting the Most solemble of the Nation in all compromises, calculated to renew sgitation on the subject of slavery, all over the country; and if passed, sure to be fraught with the most disastrous consequences to the cause of Liberty, Humanity, Morals, Education and Religion, in all that territory which is now and ought to be free. With sincere respect for your advantage and office, we carriedly entrest you to and ought to be free. With sincere respect for your character and office, we carnessly entrout you to interpose that power, if it shall be necessary, with which the Constitution vests you, to prevent that bill from ever becoming a law; we entreat you by the noble spirit of freedom which is everywhere opposed to the extension of slavery into territory now free; by the honor of your native State; by the patriotic zeal and sacrifices in the cause of liberty of your filtestrious father; by the genial clow of liberty in your own breast; by the genial glow of liberty in your own breast; by the genial glow of liberty in your own breaks; by the moral esteem in which you will be held by Ministers of the Gospel, and Christian people of all denominations; and finally, by the fear and love of God who hath ordained Liberty as the common birth-right of all theman beings; We most respectfully and earnestly entreat you never to give your signature to this bill.

A PHENOMENON .- The fact deserves to be A PHENOMENON.—The fact deserves to be recorded, says the Albany Argus, that Monday morning a large number of passengers from New York by the steambout Hero, were unded at the press-room of the Argus office, or Exchange-st, from a canal boat of the largest size! Distunt readers, and to those unacquainted with the locality, may form an idea of the swollen condition of the river, from the fact that the point where the landing was made is more than a block removed from Quay-st., on the basin.

POLITICAL DUE-BILLS.—The Circinnati Sunday Palitical Dog-Bills.—The Cincinnati Sunday Mercury exposes the fact that prior to the last State election, a gentleman who regarded the choice of Barney for the Superintendency of Common Schools as of vital importance to the best interests of the rising generation and the sale of certain school books, employed an agent to issue due-bills somewhat like the following:

\$10. This is good for ten dollars, if Rarney is elected State Superintendent of Common Schools.

[Signed]

[Signed] [Signed] The election being over and Barney successful, these who held the due-bills and had voted, colorized, carried pipe, &c., for him, presented the promises to the Agent for redemption. The Agent called on his principal, who stood "a run" to the amount of several hundred dollars, and then suspended payment.

then suspended payment.

ATEMPTED ASSASSINATION.—The usually quiot village of West Newton was thrown into a state of grent excitement by a singular affair, the particulars of which as we are informed, are as follows: Between three and four o'clock this morning, the house of Mr. Eliis E. Paine was entered by a stranger, the noise of whose movement aroused Mr. Joseph Paine, a young man of twenty-five or six years of nge, who was sleeping in the lower part of the house. Young Paine instantly sprung from his bed, and concealed himself in a corner of the room, just as the intruder entered. The man went directly to the bed, and seemed disappointed to find it unoccupied, uttering a slight ejaculation. As he turned away, young Paine sprung upon him, and was immediately assailed with a dirk knife, and stabbed in several places. Paine at last succeeded in wrenching the knife from the hands of his assailant, when the fellow drew a pistol, which Paine gra-ped and by extraordinary good fortune his little finger was between the cop and hammer just as the trigger was drawn! The hammer of the pistol took a small piece of flesh out of the finger! The fellow made a second attempt to discharge the weapon, but Paine struck his arm and the ball entered the ceiling of the room.

The struggle was then renewed, Paine in turn being the assailant, inflicting upon the fellow two stabs with the knife. The man succeeded, however, in getting out of the house, not of the garden. Paine, finding himself growing weaker, and fearing that the man would escape, tripped him over the torrace back of the house, and both fell down a steep embankment of tan feet. The stranger succeeded in discogniging himself, and escaped just as the family who had been aroused by the report of the pistol which was fired during the attraction loss of blood when the family reached the spot, and had been severely bruised by the fell over the ombankment. He will probably be confined to the house for many days by the injuries he has received. No less than severentable were ATTEMPTED ASSASSINATION.—The usually quio

WATER ON THE CARS.—Col. ATWOOD, of the Madison Journal, who is travelling at the east, writes as follows:

On the western roads, we either found a large can of good water to drink, upon the cars, or in its absence, some one was employed to carry, around water for the accommodation of passengers. This will be found of essential service and convenience to persons travelling with children. But after leaving Buffalo, we witnessed none of these conveniences, and the cars going through the country with almost lightning speed, renders it next to impossible to obtain water or anything else. We would suggest to Raifroad companies the propriety of attending to this little infiair, as it can be but little trouble to them, and of essential service to the travelling community. We are happy to note the fact that western roads are much in advance of eastern, in many of these little accommodations: It is creditable to a new country, and for it they will receive the thanks of thousands.

Every passenger car on our Raifreads ought to

housands. Every passenger car on our Railroads ought to he provided with these conveniences. No one who has not suffered from the want of them can fully realize the luxury of a cup of good cold water occasionally in a dry and dusty day of railroad travel.

1st. To advertise for contracts by which passengers and their baggage could be ticketed through, and conveyed by some of the more direct routes for a stipulated sum, which he thought could be accomplished at one half the present nominal expense of the journey.

2d, Two or three hundred are expected to go together, by which they will have society and be in a position to sid one another.

3d. A large boarding house or hearding houses are to be erected, so they can have a home and shelter when they arrive, to avoid the deprivations and dangers from exposure while erecting their hebitations.

ling their hebitations.

4th. To introduce various useful implements and machines for breaking up the new country; among which one of the most important will be the press. He thought temporary loans might be raised for those who needed to be aided in that way. Mr. Theyer says, 2006 from Massachusetts will be there in a short time, and with the German and Irish immigration to this country, a large company of Norwegians are waiting to embark for the fertile West.

A committee of five were appointed to correspond with the Emigration Ald Co., and other companies and individuals, and whether joint operations of the Aid Co. could be effected, and to call a joint convention et a future time.

An address was made by Dr. Robinson, who passed over the torritory in 1649, in regard to the character of the country. He described it as the most beautiful place he saw in all his travels in the West, including California and Mexico.—Messrs, Fay and Mallory urged the Convention to action and not to let it all die way. The Convention then adjourned sine die.

The slave-deck, which will be the principal witness against her, is still in the vassel as it was when she was taken. It is a layer of plank, roughly laid upon such heavy stores as are stowed away in her hold, and is actually not more than three feet in any part; below the maildock of the vessel. No light ponetrates it, except from the open hatch. It is of course impossible to assume any but a crouching, sitting or lying attitude in it; and the small size of the vessel renders the low apartment thus formed particularly noisome and terrible. Upon this deck, slaves are packed away as closely as pessible, in a space where it would be really impossible to move to and fro any bales of heavy merchandise.

There are peculiarities in the outfit and rig of the Glamarcan which indicate that she has been in the Brazilian trade, even were there no direct evidence to this point.

Between two and three o'clock this morning, a fire broke out in the large livery stable of N. P. The stable adjoining, with sixteen stage horses and several cusches, went next.

The Prairie City Hotel, a three story frame building Keptby D. Liegan; and two carriage shops and a blacksmith shop, all owned by Sannuel Archer, were consumed, besides a number of shads and outhouses attached to the principal buildings. Mr. Archer's dwelling was saved by great exertion.

The hotel and stables were owned by John Butten; and we presume ware insured. Mr. Tallmadge's loss is heavy. A large portion of the furniture, &c., of the Hotel was saved.

Since the above was in type, we learn that none of the property was insured. The loss of Messrs. Burton, Tallmadge and Archer, we have heard estimated at \$3,000 or \$9,000, about equally divided, a tiour was sold at 7,60 per bb4.

Grand-Jury Indictments. The Grand Jury, after a pretty long sitting, were finally discharged at 4 o'clock, yesterday afternoon. They have found a number of infictments, some of which have not yet been made public. Of these brought in yesterday, one was against John O'Rourke, for arson ; one against Abram Brown, for aiding escape of prisoner; and one against John Ryccraft, George Bingham, Thomas Mason and Martin Smith for "riot" (breaking open the jail at the Glover rescue.) In addition to the above we hear that indictents have been found against Edward Mc'Keeby for arson and for illegal voting ; against the proprietor of the Morning News, for publishing a Gift Lottery advertisement, and against the editor of the Madison Democrat for libel.

May 11th, 1854. \\
The Grand Jury of the County of Milwaukee ow in session, have heard numerous complaints from different sources, as to the location, inconvenience, and want of suitable accommodations of our County Buildings, and more particularly in regard to the incapacity of our County Jail, accommodate the prisoners therein contined. And knowing as we do that said complain are well founded, and that said buildings are not only too small, but are located in one side of the city-and very inconvenient to those having

business there, We therefore deem it our duty as citizens to recommend, that your Honorable Board, at its present session, take suitable measures for the selection of a more convenient site, and the erection of larger and more suitable buildings for county

And that for the accommodation of the busines portion of the city, and more particularly the State Departments, and pay particular attention to the Col people of the different towns of this county, said County Buildings ought to be located somewhere in the most central part of the city of Milwaukee. BLESPIED, June 10, 1823.

Prof Woon—Deer Sir Since yourceptest me to give you a statement of the effects of your wooderful, Restorative upon me. I choerfully state, in reply, that I have now used three bottles of it; and atthough my last when I yourneared it was although with the processor work of the consideration of the effect of the consideration of the effect of the consideration of the state of what they considered a perfect miracle, until I informed them if two but the want of an in-ention of your called Hair Restorative. I will also state that I was stuch troubled with dandered and ticking, partendary when to perspiration; but it only required three or four applications to camore altidandeuffand ticking, and although my hair had fallen off until I was somewhat bald, I now have as fine a head of halr, both in color, soft sees and ituars, as I had when but a youth, and quite as abundant. It is proper for me to state that I commerced its use in August last, and used none since January. I have no doubt therefore but what the change is a permanent one; I can therefore recommend it as the most wooderful discovery of the age in which we live.
